NO RELIEF IN SIGHT FOR COAL SCARCITY

Necessary to Turn Off Heat Again in M. U. Buildings Early This Morning.

ARE TRACING CARS

Local Dealers Unable To Supply Demands of the School and City.

After heating the University buildings temporarily for a few hours this morning, the University found it necessary to cut off the heat at 10 o'clock due to the coal famine. There will be no heat tomorrow and probably none Sunday or Monday unless a supply of coal is received.

Edward E. Brown, business manager for the University said this morning. "We are tracing the cars, but have been unable to locate any between Columbia and St. Louis. We expect to receive a shipment of coal between now and Sunday. Our present supply is exhausted and we have been buying coal from local dealers, but they are unable to furnish us with what we need to keep the University heated.

"Many of the classes were dismissed this morning and probably more will be this afternoon, for nearly all of our coal was used this morning, and the steam is cut off at present, with the exception of the hospital. I do not see how the University can continue to hold classes unless we find some means of meeting the coal fam-

The local dealers see no immediate relief, and unless a flood of cars are turned loose immediately there is likely to be much suffering for the demuch suffering. He is receiving very an inventor, too. little coal, and believes that the situation will become worse if the thousands of empty coal cars in St. Louis are not rushed to the mines.

Mr. Dalton of the Dalton Coal Comand expects two tomorrow, but sees no permanent relief from the threatening famine. Davis and Watson are born at Sangersville, Me That firm furnished coal to the University yesterday, but expect no permanent relief during the winter. The Columbia Coal Company is turning out about twenty-five ton a day.

The Student Senate last night decided to take final action on the fresha result of his deliberate refusal to or \$3,000. comply with the student regulations regarding the wearing of the freshthe Discipline Committee for suspension from the University. The followput on probation until noon tomorrow. November 24, and that if he does not put on a freshman cap by that time, shall be summarily suspended from school for this semester."

Dinner For Stay-at-Homes.

According to present arrangements the Y. M. C. A. Thanksgiving dinner will be served at the Virginia Grill at 12 o'clock next Thursday.

Kewpies Lose to Kirksville 12-0. The Columbia Kewpies were défeated by the Kirksville football team, 12 to 0 at Kirksville this afternoon.

THE CALENDAR

Nov. 26-28.—Annual meeting Missouri Conference for Social Welfare in University Auditorium.

Nov. 28.—Miss Clara Schmitt of the psychopathic department of the Chicago public schools will speak at a joint meeting of the Home Economics Club and Pi Lamba Theta in the Agricultural Auditorium at 7:30 p. m.

Nov. 30 to Dec. 4.—Thanksgiving Holidays.

Dec. 13.—Interpretative recital, "Othello," Christian College, 8:15 p. m.

1-16—Landscape Design Exhibit, Fac-ulty Room (107) University Li-brary Building.

THE WEATHER

For Columbia and Vicinity: Fair colder tonight—temperature to about 18 degrees. Fair and a little warmer Saturday. For Missouri: Fair tonight and Saturday; colder tonight, rising temperature Saturday north and west portions.

Weather Conditions.

The storm that developed in the Rio Grande Valley about three days ago, and which was central near Chicago yesterday morning was at 7 a. m. today central near the City of Quebec, on its way down the St. Lawrence Valley. This storm has not only been a swift mover and a great precipitation producer, but it steadily increased in energy as it traveled northeastward and by the time it reached the lower Lakes it had become a dangerous storm, causing wind velocities of nearly seventy miles an hour with rain, sleet and snow. Its influence is still felt south to Hatteras, and reaches from Minnesota eastward nearly one thousand miles into the North Atlantic.

IN THE FIELD OF TEACHING Dean Charters Tells of the Advantages

of the Profession.

"The average teacher who is a University graduate makes as much money as the average lawyer or doctor, notwithstanding the general opinion that a teacher is poorly paid," according to Dr. W. W. Charters, who off a feared disastrous car shortage delivered the third lecture in the faculty series last night, on the subject of "The College Graduate as a Teachcar efficiency to return to home lines er." To support this assertion he told of the progress that members of the class of 1906, in the School of Educa-

tion, have made since graduation. Out of the twenty-six men in the class, one is president of Stephens College, one is president and part Prep School Team Wins Its Pinil owner of Kemper, one is director of extension work, three are University professors, six are normal school professors, three are superintendents of schools, two are principals in St. Louis schools, two are in religious educational work and one is a high men who have refused to wear their school professor. They have been out freshman caps. The Senate decided of school only a short time yet they that Mark Lomax, a first-year man, as are making on the average of \$2,500 ball was recovered on Moberly's ten-

"Although the remuneration may be a little low, the teaching profession man caps, should be recommended to has many desirable advantages. There is a permanence in the position and one does not have the worries of busiing report was sent to the Discipline ness life. Pensions are being provid-Committee: "That Mark Lomax be ed for old teachers, so the worry for the future is cast aside. Then, too, the teacher has more leisure than other professions-leisure in the sense that after he is through with class work he can do what he likes with the remaining time. The teacher has a pleasant social environment. For the man who thirsts for knowledge, the teaching profession gives plenty of

time for investigation." "There are four necessary characteristics for the teacher; first, a medium ability in the line in which he is resentative of W. D. Ittner, architect expense of the warring nations, and interested; second, a fondness for of the two new Columbia schools, tho study; third, he must be a hard worker; and fourth, he must be fond of ings here for the last few weeks, mide

WITH M. U.'S GROWTH

Biennial Inspection For State Assembly.

TO ASK FOR MONEY HE SCORES IN 4 MEETS

Members Favor a Permanent | Takes 17 Points at Stockholm Maintenance Fund for the University.

That the University has made a phenomenal growth within the last twenty years with the appropriations which have been granted is the opinion of the board of visitors appointed by the governor, expressed today by A. E. Douglass, of Kansas City, a of the board, Mr. Douglass, R. L. Alford of Vandalia and Frank H. Crowell of Butler, came last night for the biennial inspection of the University. They will leave Columbia tonight.

The board of five members is appointed to visit the University once every two years to investigate its needs and is required to report to the governor before the meeting of the General Assembly. The chairman of the committee is Jay L. Torrey of Fruitville, and the fifth member is Thomas T. Fauntleroy of St. Louis.

This Trip Merely for Inspection. "Our trip to Columbia today is merely one of inspection," Mr. Douglass said. "We will tabulate the needs of the institution and formulate our report at a meeting of the committee which will be held before the convening of the General Assembly.

"We feel that the state should stand behind its University to the largest possible extent. What we are endeavoring to incorporate in our recommendations is a plan for a permanent maintenance fund which will place the University of Missouri in a position to cope with the best state institutions of the United States. Missout is one of the rich at states in the Union, and there is no reason why such a thing is not possible.

"The growth of the University with the small appropriations which it receives and the place among the educational institutions of the United States which it has taken, are remarkable and almost unprecedented. Committee Realizes Need of Funds.

"The committee is pleased with the spirit of co-operation in the institution between the students and the faculty. We realize that with the increased proportions of the student located it should be maintained.

united support of its chief equcational well as his specialty, the hurdles. institution. There is no one thing which speaks more for the progres- only disagreeable feature of the trip, this is true of Missouri."

The University is also of great as sistance to Columbia Mr. Douglas said, and the people of the town should not fail to appreciate just what the state institution is doing.

U. H. S. DEFEATS MOBERLY HIGH

Game of the Season, 12 to 0. The University High School fod ball team, coached by Donald Selbe a University student, finished its se son with a 12 to 0 victory over the Moberly High School football tes yesterday on Rollins Field. The local team got away in the lead, when a Moberly man fumbled a punt and the yard line by a University High ma A forward pass, Durall to Whiteley, gave the University High team first touchdown.

In the second quarter another Drward pass, Durall to Whiteley, netted the second touchdown. Both of the

passes were for about 15 yards. The stars of the game were Durill, Whiteley and Duncan for the Univer-Smith and Goetze for the Mobirly

FROM TRIP ABROAD

Board of Visitors Here For Missouri's Greatest Athlete Returns With Fifteen Cups and Twelve Medals.

—Distinguishes Himself at One University.

Unheralded, Robert I. Simpson-Missouri's greatest athlete, the same unassuming Bob that left for Europe some two months ago-arrived in Columbia at 5 o'clock this morning. Enriched only by the wonderful experience of the trip, some fifteen gold and member of the board. Three members silver sups of various sizes, a few medals, a world's record or two and several pounds of flesh, the great athlete slipped quietly into town, ready to resume his University studies.

The American athletes, Ward, Murray, Meredith, Loomis and Simpson, who were in Sweden, Norway and Denmark for four weeks arrived in New York Wednesday morning, and Simpson was not slow in making his way back to Missouri. The party was held up at Kirkwall, England, for two days on both the outward and the homeward trip, but otherwise had no delays.

From the time the athletes landed in Christiania, October 11, until they left have ever seen. All the pavement is Copenhagen, November 8, there was never an idle moment, according to Simpson. Banquets, rides and various know how to dress their windows. We other forms of amusement filled in the time between the four track meets in which the Americans participated. Bob said that they often wished for some time to themselves in which to write letters or to order a meal as they wished it.

The men had only two days to work out before the Stockholm meet, but they were glad of that much after the fourteen days' boat trip. Thirty thousand persons attended the Stockholm meet, in which Simpson broke the Olympic record for the 110-meter high hurdles, making the distance in 14 4-5 seconds.

Leads Field With 17 Points.

Another record Simpson made was curve. Running under four big electric lights Bob won the race in 25 2-1 seconds. The Missouri athlete led the fileld with seventeen points at this mee-Three other meets were held, one at Christiania and the two others in Sweden at Malmo and Upsula, where is body that ample funds must be pro- versity. In all of them Bob distinvided to maintain the University as guished himself, winning more points than any other man and proving his "We feel that a strong appearhould all-around ability by participating in be made throughout the state for a the dashes, high jump and relay, as

have some fine restaurants. All they use water for is to wash with.

"Stockholm is the cleanest city of cobblestones, and the houses are built for permanence. The stores used to walk down the street just to see the attractive window displaysso different from those in American stores. The trains, hotels and restaurants are all crowded and reflect the clean prosperity of the people. They Didn't Get Seasick.

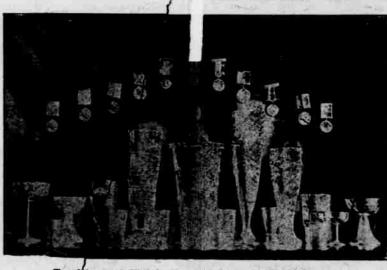

"We didn't get a bit seasick-that's all a matter of the mind," Bob replied to an inquiry. Later he was asked about the Swedish girls. "There are certainly lots of them in Stockholm and pretty, too," said Bob smiling.

"It was impossible to find out a thing about what was happening in the states," Bob went, on. "The English papers we saw had nothing but war, and we never got hold of a paper in the 220-meter hurdles around a from this country. I didn't find out about our football games until I ran across a University professor in St. Louis yesterday."

Simpson's collection of fifteen cups, which range in size from a quart neasure to a two-inch high cup, and in even dozen medals, all won in the Missouri Store. Even though the incriptions are in Swedish and Norweg-An, they tell better than mere words, the story of the prowess of Missouri's most wonderful and consistent ath-

THREE CITIES FALL INTO TEUTON HANDS

Von Falkenhayn Approaches Alps-Rumanians Report Resistance Broken.

HOSPITAL SHIP SUNK

British Vessel Destroyed 60 Miles From Place Where Brittanic Was Lost.

By United Press BERLIN, Nov. 24.—Orsova has been captured by Teuton troops, the official statement from Rumania announced today. The statement said there were no important engagements on the front commanded by Prince Leopold. On the Wallachian plain the troops of General Von Falkenhayn are approaching the Alps. The Rumanians report that hostile resistance has been broken in the west. Sevrin and Turnu have been captured in addition to Orsova.

New Russian Premier Appointed. By United Press

PETROGRAD, Nov. 24. - General Trepoff has been appointed prime minister of Russia, the present premier, General Sturner, becoming grand chancellor.

British Hospital Ship Is Sunk.

LONDON, Nov. 24.-The British hospital ship Braemer-Castle, homeward bound from Saloniki, was sunk by a mine or torpedo in Mykoni Channel of the Aegean Sea, the admiralty announced today. The statement said that all on board were saved. The channel where the Braemer-Castle was sunk lies between the Greek islands of Linos and Mykonos and is only about sixty miles from the spot where, on Tuesday, the Brittanic, another British vessel, fell victim to a mine, according to the latest admiralty announcement.

Allies Win Back Land From Teutons, By United Press

PARIS, Nov. 24.-Further progress of the Allies west of Monastir was announced in the official statement this afternoon. The battle northeast of the Macedonian city is continuing. Italian troops are also advancing. Nearly two hundred square miles have been reconquered from the Teutons in the Allied victories around Monastir, according to Serbian official statements this afternoon. Violent fighting Wednesday along the Monastir is reported.

SEASON'S LAST MASS MEETING

Other Features To Take Place of Band and Cheer Leaders, Tuesday Night.

The last mass meeting of the football season will be held in the University Auditorium at 7 o'clock next Tuesday night, the last night before the students will invade the land of the Jayhawkers. Lue Lozier, student president said today that although he was working under a handicap for this meeting, as both the band and the cheer leaders will have left for Kansas City where they will take part in the University Day program on Wednesday, he intends that this mass meeting will have other features that will rouse the spirit of the students. He is trying now to get George Willson, student president in 1913, and Eddie Kline, quarterback on Bill Roper's famous 1909 team here for Tuesday night. He is also negotiating with the University Glee Club.

The mass meeting will have to close at 8 o'clock as the State Conference on Social Welfare have made arrangements for the Auditorium at that hour. Immediately after the mass meeting the freshman cap burning will take place around the circle on the Quad-
